# Micronized Robank Re-Juvenate

- Robank Equi-**NIZE**<sup>®</sup> Re-Juvenate has been specifically formulated for those horses on rest from hard training or in the early stages of exercise after a spell. It has been designed for thoroughbred horses.
- Robank Equi-**NIZE**<sup>®</sup> Re-Juvenate is a high fat feed and contains the super fibre beet pulp. This enables this feed to be fed at lower rates of intake to achieve body weight, without the need to feed high levels of grain. In addition Molafos Gold<sup>®</sup> is added which helps the feed to be highly palatable and digestible to the horse when coming out of the stress of competing.
- Robank Equi-**NIZE**<sup>®</sup> Re-Juvenate is a grain based feed that uses a proprietary blend of organic trace minerals, digestive aids and protein sources to enable a horse on rest or in early stages of training to repair or build muscle and connective tissues.

## KEY FEATURES:

- Convenient formulation, no need to mix or add other feeds.
- High in fibre, utilises beet pulp a highly fermentable fibre source (energy).
- Contains Robank's Equi-**NIZE**<sup>®</sup> Mixer Pellet – providing high quality proteins, BioPlex<sup>®</sup> minerals, Organic Selenium and digestive aids Bio-Mos<sup>®</sup> and Yea-Sacc<sup>®</sup> (for improved fibre digestion and immune function).
- A unique blend of grains, fibres and protein sources giving the feed its desired performance in a lower feeding rate.
- Ideal for horses on rest from training or those resuming that are doing light exercise.

## INGREDIENTS:

Robank Equi-**NIZE**<sup>®</sup> Barley Flakes, Robank Equi-**NIZE**<sup>®</sup> Mixer Pellets (Protein, Organic Trace Minerals, Digestive Aids, Vitamins), Robank Equi-**NIZE**<sup>®</sup> Lupin Flakes, Oats, Robank Equi-**NIZE**<sup>®</sup> Maize Flakes, Molofos Gold<sup>®</sup>, Robank Equi-**NIZE**<sup>®</sup> Beet, Vegetable Oil.

# Micronized Robank Re-Juvenate

## FEEDING DIRECTIONS

Robank Equi-NIZE<sup>®</sup> Re-Juvenate can be fed at the following rate:

Spelling Horse (Yard or Paddock) 2-3kg per day

Horse in light work (Pre-Training) 3-4kg per day

As Equi-NIZE<sup>®</sup> Re-Juvenate is a concentrated source of protein, minerals and vitamins, do not feed more than the recommended rate.

If more calories are needed then additional grain may be added for horses in light condition in the form of Oats or Equi-NIZE<sup>®</sup> Barley. Otherwise additional fat (oil) can be added up to 400mls per day if needed. Feed with good quality forage and or/hay.

An electrolyte such as Robank QUENCH<sup>®</sup> should be added to help maintain correct hydration particularly in hot weather conditions, otherwise a straight salt lick or 30gms of plain salt may be added.

Feeding amounts may vary with age, exercise and body condition.

As with all feed changes, introduce Robank Equi-NIZE<sup>®</sup> Re-Juvenate gradually over a 7-14 day period.

## NUTRIENT ANALYSIS - as fed

Fibre	7.5%
Crude Protein	13%
Fat	8.5%
Calcium	1%
Phosphorus	0.6%
Manganeze	200ppm
Zinc	200ppm
Iron	348ppm
Copper	70ppm
Iodine	1.6ppm
Selenium (100% Organic)	0.9ppm
Vitamin E (Natural)	600 IU/kg

Contains digestive aids Bio-Mos<sup>®</sup> and Yea-Sacc<sup>®</sup>

**WARNING:** Feed Robank Re-Juvenate according to the feeding instructions provided on the feed tag, or upon the advice of your nutritionist. **Feeding additional vitamin or mineral supplements is not recommended when fed according to feeding instructions.**
